APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source and with the understanding that all of the water herein granted will be returned to the stream at the point designated in the application, free from deleterious matter, and with the further understanding that the proof of beneficial use, when filed, will show the power generated and the amount of water required and used therefor. A suitable measuring device must be installed and accurate measurements of water placed to beneficial use be kept. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit is subject to the condition that the permittee must ensure that wildlife which have customarily used such water will have access thereto, NRS 533.367.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.067 cubic feet per second, no consumptive use of the water is allowed under this permit.

Work must be prosecuted with reasonable diligence and be completed on or before November 29, 1987

Proof of completion of work shall be filed before December 29, 1987

Application of water to beneficial use shall be made on or before November 29, 1989

Proof of the application of water to beneficial use shall be filed on or before December 29, 1989

Map in support of proof of beneficial use shall be filed on or before _____
